This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

NOTE.

In accordance with the wish of the Overseers and the Corporation, expressed in their votes of the 15th and the 27th of April, 1885, an attempt has been made to give in this issue of the Quinquennial Catalogue the names of all Fellows and Tutors of the college prior to 1707. Moreover, the history of the Board of Overseers has been traced to its origin, while the names of a few early instructors, heretofore excluded, have been given their proper places. It has not been thought proper to include the names of such as were merely licensed to teach private pupils in the college.

These lists are based upon the college records, though assistance has been found in Sibley's "Harvard Graduates," and elsewhere. It is hoped that their publication in this tentative form will excite interest and lead to correction of errors and the settlement of doubtful points.

For the first time since 1842 the Catalogue has been prepared in large part without the support of Mr. Sibley's wide knowledge and minute accuracy. Those who appreciate this fact will doubtless be lenient to the first work of an unpractised hand.

In expressing my thanks to all who have given me help, especially to the class-secretaries who responded in such a gratifying manner to my appeals, and to those friends of the Catalogue whose zeal is silently commemorated in this as in many earlier issues, I venture to hope that their aid will be abundantly continued in the future. As I shall henceforward prepare the Necrology for the University Bulletin, I ask all persons having knowledge of the facts, and especially class-secretaries, to inform me at once of the death of graduates, giving month and day as well as year. Copies of class reports are especially desired.
